

Give your CNC *turning* centers a probe this Holiday Season.

That's right - Probes are not just for mills anymore!

Join us as we present a "part probing on a lathe", class offered in conjunction with our open house, December 7 and 8 at our Franklin Tech Center. Doors open at 9:00am and the event will "Wrap-Up" at 4:00pm.

December Class: Introduction to Probing on a Lathe

- When and why to use a part probe on a lathe.
- The "dos" and "don'ts" when considering lathe part probing.
- In-process inspection, offsetting, and reporting.
- Live probing demonstrations on two turning centers.

Dates: Wednesday, December 7 & Thursday, December 8

Time: Class is 10:00am - 11:30. Lunch is served at 11:30am

Needless to say, there will also be the traditional Knox Machinery catered Christmas luncheon, complete with great food, drinks, and epic networking!

RSVP by phone: 937-743-2641, or email aroeth@knoxmachinery.com.
